HOW CAN CHILD CARE RESOURCE AND REFERRAL AGENCIES SUPPORT THEIR COMMUNITIES IN REOPENING?

All child care programs should follow the guidelines set forth by their state’s licensing agencies, as well as consult with their local health department.

**Programs that have been closed and will be reopening**

- Learn about new policies and protocols, e.g., those based on CDC recommendations and state licensing and subsidy requirements.
- Update program policies and procedures, including a child care program response plan, that cover infectious disease (see samples in English and Spanish).
- Train or connect staff with training about new policies, protocols and procedures.

**Programs transitioning from Emergency Child Care for Essential Personnel to enhanced regular operations**

- Prepare to switch from temporary licensing regulations to routine and updated guidance.
- Maintain intensified cleaning and disinfection.

**Prepare to switch from temporary licensing regulations to routine and updated guidance.**

- Source/Continue to source and restock food and supplies including extra cleaning supplies and Personal Protective Equipment (PPE).
- Meet CDC recommendations, e.g., social distancing, modified dropoff and pickup procedures, screening, face coverings and grouping strategies.

**Source/Continue to source and restock food and supplies including extra cleaning supplies and Personal Protective Equipment (PPE).**

- Maintain adequate staff-to-child ratios to ensure safety, as required by your state (enhanced, regular ratios may differ from emergency ratios).

**Maintain adequate staff-to-child ratios to ensure safety, as required by your state (enhanced, regular ratios may differ from emergency ratios).**

- Budget and learn more about program costs such as:
  - Restocking/sourcing food and materials including personal protective equipment (PPE)
  - Cleaning supplies and paper products
  - Payroll
  - Recruiting and adding staff
  - Modifications to the building
  - Advertising
  - Subsidy requirements (reimbursement for enrollment vs. attendance)

**Budget and learn more about program costs such as:**

- Assess and modify staffing to address changes in ratios, grouping and ages of children in care.
- Reengage former staff and/or recruit new staff.
- Implement guidelines for staff at higher risk for severe illness.
- Implement a plan to ensure adequate ratios if staff members are sick and/or cannot work.
- Communicate program policy and procedure changes to families and staff (see samples in English and Spanish).

**Assess and modify staffing to address changes in ratios, grouping and ages of children in care.**

- Notify licensing and subsidy agents and CCR&R agency that you are reopening.

**Notify licensing and subsidy agents and CCR&R agency that you are reopening.**

- Let previously enrolled families know that you are reopening. Understand that families may not want to or may be unable to immediately return, e.g., they may have sought care elsewhere, be fearful of returning to child care, or may have lost their jobs.

**Let previously enrolled families know that you are reopening.**

- Recruit new families.

**Recruit new families.**

- Assist families that are transitioning back to their previous child care arrangements (e.g., letter/documentation to previous program).

**Assist families that are transitioning back to their previous child care arrangements (e.g., letter/documentation to previous program).**

- Identify resources and strategies for self-care and stress management. Share with staff and families.
- Consider and respond to the social-emotional needs of children, families and staff.
- Partner with families and staff on talking with children about COVID-19.
- Connect families and staff with local comprehensive services of interest to them, e.g., assistance with food, housing, health, mental health, education, employment and domestic discord.
- Make child abuse and neglect prevention resources available to staff and families. Child care providers are mandated reporters of suspected child abuse and neglect.
