

OUR PRINCIPLES

We are:

- ***Purposeful partners.*** We put people and relationships first, look for ways to add value, and do what we say.
- ***Courageously capable.*** We hold ourselves and each other capable of getting hard things done and give and share power, information, grace, and credit freely.
- ***Change seekers and makers.*** We challenge current assumptions, believe real change is possible, and champion progress happening across America toward an equitable, high-quality child care system.
- ***One team, many stories.*** We value our diverse perspectives and are a united force toward our shared mission.
